

HEALTHCARE ADMINISTRATION CERTIFICATE OF GRADUATE STUDIES

The Certificate of Graduate Studies in Healthcare Administration is designed to meet the educational and career needs of individuals who are currently working in healthcare or a related area. The certificate program offers opportunities for those who desire continued professional development without formal pursuit of a master's degree.

Students may select four courses from the Healthcare Administration graduate curriculum for their certificate study. The Graduate Program Director will work with the student in selecting the courses for the certificate. Most, if not all, of the courses will be required courses from the Master's Degree. These courses will reflect a range of subject matters to provide the student with broad exposure to facets of the healthcare industry.

Students must successfully complete four courses (12 credits) to earn the certificate. The specific courses will be selected from the Healthcare Administration core courses after discussion with and approval of the graduate program director after discussion with the student.
