

CHEMISTRY (B.A.) LEADING TO CHEMICAL OR BIOMEDICAL ENGINEERING (B.S.)

Students majoring in chemistry complete a minimum of 120 credits to earn a bachelor's degree. While enrolled at Salve Regina University, students complete a minimum of 40 credits of core courses and 51 credits of major courses. The remaining 29 credits are completed after transfer to Washington University. Before conferral of the B.A. in Chemistry from Salve Regina University, the student must request that Washington University forward transcripts to verify completion of all required coursework.
